

Coding & Solution

Date	05 July 2026
Team ID	xxxxxx
Project Name	Smart Lender
Maximum Marks	5 Marks

Coding & Solution

This section evaluates the quality and completeness of your implemented code and the overall solution. Your submission should demonstrate working functionality, clean code practices, and alignment with your defined requirements.

Instructions:

1. Ensure your code is well-structured, commented, and follows best practices for your chosen technology stack.
2. The solution should address the core problem statement and implement the key functional requirements.
3. Include all source files, configuration files, and setup instructions needed to run the application.
4. Attach or link to your code repository (e.g., GitHub) in the table below.

Solution Summary

Field	Details
Repository Link / URL	https://colab.research.google.com/drive/1CXeo-fEqIc1hRW0ruM_c5BLkuh0i3VbL
Programming Language(s)	Python, HTML, CSS
Framework(s) Used	Flask, XGBoost, Scikit-
Key Features Implemented	Loan Prediction, Data Preprocessing, Model Training, Flask Web App
Pending / Incomplete Features	IBM Cloud
Setup / Run Instructions	Deployment Install requirements → Run python app.py → Open http://127.0.0.1:5000

Code Quality Checklist

S.No	Criteria	Status (Yes / No)
1	Code is modular and organized into functions / classes	Yes
2	Meaningful variable and function names are used	Yes
3	Code includes comments / documentation where necessary	Yes
4	Error handling is implemented for critical operations	Yes
5	The application runs without critical errors	Yes
6	Code is committed to a version control repository	Yes

Additional Notes / Comments:

The Smart Lender application uses Flask and XGBoost to provide fast and accurate loan approval prediction. The code follows a modular structure, making it readable, reusable, and easy to maintain.
